 +880 1796 844 288

 [suman.iu32@gmail.com](mailto:suman.iu32@gmail.com)

 Tejgaon Industrial Area,  
29/C & 29/D, Dhaka

## EDUCATION

**M.Sc. In CSE** (2.76) - 2018

*Islamic University.*

- Kushtia, Bangladesh.

**B.Sc. In CSE** (3.04) - 2017

*Islamic University.*

- Kushtia, Bangladesh.

## KEY SKILLS

 JavaScript

 React.js

 Next.js

 TypeScript

 Nest.js

## TRAINING

[Web Development with React,](#)

[Next, Prisma](#)

Ostad Ltd, Dhaka.

- Gained strong foundation in state management.
- Performance optimization with caching, revalidation, lazy loading, image optimization, and font optimization.
- Enhanced understanding of Vue Router for efficient routing and navigation.
- Developed proficiency in state management with Context API.
- Gained experience in component-based architecture and reusable components.
- Payment gateway integration with SSL Commerz and AamarPay and bKash.

## SUMMARY

Self-motivated and performance-driven Web Developer about 4+ years of experience building web applications, updating existing web applications, and fixing bugs. I have worked extensively on various stages of application development by creating & implementing application architecture which includes various stages in development, code signing, and releasing to market and collaborative environments for the web platform.

## PROFESSIONAL EXPERIENCE

### Software Engineer at [MononSoft Ltd. \(A Sister Concern of JMI Group\)](#)

Dec 2021 - Present

52 New Eskaton Road, Dhaka-1000.

- Developing an ERP system based on **React.js** and **Laravel**.
- Hands on experience of building **Production Planning (PP)**, **Material Management (MM)**, **Finance and Controlling (FICO)** module.
- Creating and implementing the source code of new applications.
- Testing source code and debugging code.
- Evaluating existing applications and performing updates and modifications.
- Developing technical handbooks to represent the design and code of new applications.

## SKILLS & EXPERTISE

- Develop, maintain, and optimize reusable frontend components using **React** and **Next.js** (App Router).
- Implement responsive and interactive UIs in collaboration with product designers and backend teams.
- Use **TailwindCSS**, CSS, and styling libraries to build clean, scalable UI systems.
- Architect frontend codebases following industry best practices, design patterns, and performance standards.
- Work with micro frontends and micro repo/mono repo structures to build large-scale modular applications.
- Build and maintain internal design systems and component libraries.
- Utilize **TypeScript** to write readable, maintainable, and strongly typed code.
- Optimize application performance, SEO, and overall user experience.
- Work with state management libraries and **TanStack Query** for client/server state synchronization.
- Maintain high code quality using linting tools, formatting standards, and Git workflows.
- Participate in release processes and CI/CD pipelines for smooth deployments.
- A solid foundation on **OOP, Algorithm, Data Structure**; knowledge of **REST APIs**.
- Experienced with **PostgreSQL, MongoDB, MySQL, Prisma, SDLC** and **Agile** methodologies.
- Version control with **Git, Bitbucket, GitHub**; basic knowledge of **AWS**.
- Problem-solving skills; self-managed, independent, and proactive.

## PROJECTS

- E-learning platform using Nest.js, Next.js and Prisma.
- Multivendor eCommerce website for online shopping using React.js and Next.js.
- POS application for inventory management using React.js and Next.
- Realtime chat application using React.js and Express.js.
